# A/ZERUM

---

We apply set of techniques used to enhance the productivity of oil and gas wells with the goal of increasing the flow of hydrocarbons from the reservoir to the wellbore, thereby improving the overall efficiency and output of the well.

Developed to act in the cleaning treatment and prevention of the presence of compounds such as asphaltenes, paraffin, resins, waxes, hydrates, water block, emulsions.

A/ZERUM ENERGY holds over 30 years of experience achieving the functionality and success of our work by carrying it out under the highest quality standards, using cutting-edge technology and permanently training our human capital.

**Specialized**  
Technical Expertise

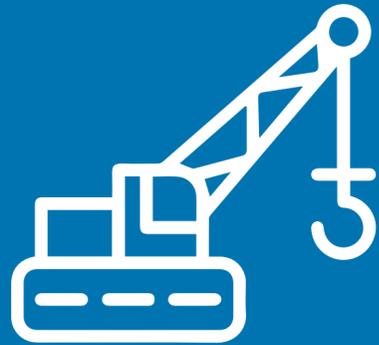

**Approach**  
Innovative and  
Sustainable

**Commitment**  
to Safety and  
Compliance

---

## Modern Equipment

We boast state-of-the-art equipment, ensuring efficiency and quality in every project.

---

## Labs

We conduct laboratory analyses to ensure the best solutions, guaranteeing optimal outcomes for our clients.

---

## Eco Solutions

We take pride in being eco-friendly, prioritizing sustainable practices in every aspect of our operations.

# Customer Applications

Our company provides first-class petroleum & gas solutions and services for governmental and private organizations worldwide.

### Oil Rigs

Efficient well drilling

### Oil Refineries

Crude oil transformation

### Oil Pumps

Sustainable crude extraction

### Storage and Loading Terminals

Ensuring quality tanks

### Natural Gas Plants

Energy solutions

### Pipelines

Flow assurance

# How we make it work

---

AZerum Energy started with the objective to provide engineering, construction and maintenance services for the energy industry. We thrive to have the highest quality and safety standards. We are organized into decentralized business units that allow us to offer our clients immediate solutions, providing services with a close relationship between quality/delivery time.

## Mission

Stand at the forefront of engineering excellence, specializing in the manufacture of dynamic equipment tailored for the oil, energy, electric power, and renewable energy industries. Our mission is to deliver cutting-edge solutions that enhance efficiency, reliability, and sustainability across all energy sectors.

## Vision

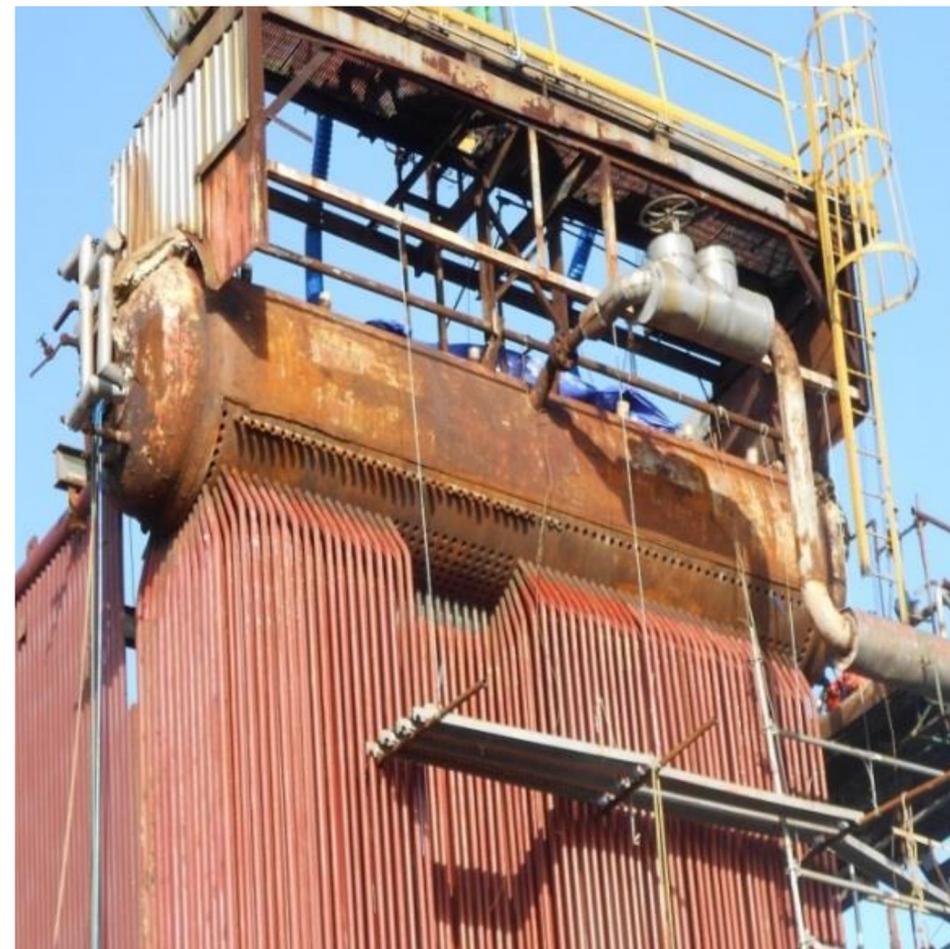

Maintain and exceed our quality standards through the absolute satisfaction of our clients, contributing to the fulfillment of their objectives, facilitating their performance and in this way achieve position above its competition, always seeking EXCELLENCE and performance of our staff.

## We care

We always endeavour to be a responsible business partner. At Azerum we continuously work with HSEQ: our policy is to meet applicable standards governing quality control, environmental protection and occupational health and safety at all times.

## Our Services

- Preventive Maintenance
- Corrective Maintenance
- Well Stimulation
- Mechanical Workshop
- Anti corrosion coatings
- 3D Modeling
- Foundry

## Our products

- Pumps
- Boilers
- Heat Exchangers
- Fin tubes
- Filters for Energy sector
- Mechanical Press
- Heat Recovery systems
